Spirit'17

Experience the Knowledge
25th - 26th March 2017

ALL INDIA STUDENT'S CONCLAVE
AND A NATIONAL SEMINAR

ORGANIZED BY :
Pharmaceutical Society
Department of Pharmaceutics
IIT (BHU), Varanasi

Spirit'17

A tribute to the majestic river ever enchanting yet evoking within the thought to strive, the Pharmaceutical Society, Department of Pharmaceutics, IIT (BHU), organises for the 8th consecutive year one of our nation's largest pharmaceutical festivals – **SPIRIT'17: Experience the Knowledge**. The two day event, from **25th-26th March 2017**, promises to encompass new attributes and innovations to bring out the best of the participants, exposing the technological wing to reveal the magic within. So steady the sails and dive into the divinity, an everlasting journey to the world of wits and spiritualism.

National Seminar

SPIRIT'17 packs an unanimous yet thought-evoking conquest in the form of a national platform where eminent scientists and leading entrepreneurs will hold talks on contemporary issues and provide a backdrop for the assiduous lot to put the thought to work.

Analytical Event

SPIRIT'17 vision to enhance your knowledge and encourage its broad application in the living realm.

EUREKA (Sample Analysis): Reinvent yourself to get past the hurdles posed by sample analysis.

IMPULSE (Group Discussion): Group discussions are designed to let you showcase your oratory skills and comprehending ability.

CODON (Prescription Study): Student would develop a pragmatic approach towards the fundamentals of pharmaceutical sciences via prescription analysis

Rhetorica

SPIRIT'17 brings to you Rhetorica, crafted to test the personality and general awareness of the participants. This is an unparalleled chance to educate your opinion to others on issues challenging the society.

VECTOR : Consists of MCQ lasting 40 minutes, for both UG as well as PG.

GENUS MINDS: A quiz competition of four rounds with participation in groups of three.

IGNITED MINDS: Here the oratory skills are put to the test, with teams of two members each

Magna-Carta

The current scenario requires an apt decision making to ensure feasibility to our technological innovations. We have designed a three pronged approach to horn your skills.

SYNECTICS: Consisting of 2 rounds, an initial aptitude test and the final Case Study.

PANACEA: The entrepreneur side of yours is put to the test in front of the jury.

BULL'S EYE: Consisting of two rounds: a qualifying questionnaire round and the final round for selecting market solutions.

Workshops

Workshops are aimed to inculcate understanding of unexplored domains by experts representing diverse disciplines. They would augment your Knowledge and show in-depth, the many opportunities that loom over the horizon of success. These professionals would broaden your approach and assist you to understand the different career path and thier scope ahead.

Educational Fair

For the adventurous lot, the opportunity for venturing out into the unknown grows ever so bright, for they are in for a surprise of a lifetime! Our sponsors and various pharmaceutical companies provide an optimal platform for securing interns and getting an insight into the leading industries through their educational fairs. It ensures the students to have a firm footing with the recent innovations and technological developments. A real treat to the soul, expect the best time around!

Online Event

For those quick on the world working, an opportunity is before you to showcase that extra side of yours. **SPIRIT'17** is organizing online quizzes through Facebook and other Medias, with the winners receiving many exciting prizes.

Scientific Events

SPIRIT'17 puts forth before the young scholars an opportunity to dig deep within the soil of innovation and pursue the gem for which they began their journey.

POLARIS (PG-Poster Presentation): An opportunity for the young scholars to showcase their research work.

AGNITIO (UG – Poster Presentation): To enlighten the UG towards the developing culture of research and its stardom.

FABRICA (Model Making): Innovative models finding applications in Pharmaceutical sciences.
