

Ref. No.: IIT (BHU)/SBME/FY/2024-25/QTN/01-A

Dated: 13.08.2024

CORRIGENDUM

Corrigendum Title: Modification in Technical Specifications

Tender Ref. No.: IIT (BHU)/BME/QTN/2024-25/01

Tender Title: Virtual Reality Hardware and Software Setup

Tender ID: 2024_IITBU_820025_1

With reference to the above mentioned tender, the partial modification in specifications has been done as stated below:-

Section 8, Annexure-I, Page No.: 32, SCHEDULE OF REQUIREMENTS		
Point/ Bullet No.	In Tender Document For	Modified (Now) Read
1.1	Build applications quickly with the Python scripting language. Platform should provide everything needed to build complete, interactive 3D content and should facilitate Rapid Prototyping.	The platform should allow for rapid application development using a high-level, dynamically-typed scripting language. It should provide all necessary tools to build complete, interactive 3D content and facilitate rapid prototyping.
1.2	Support for Python 3.8 scripting (or newer) including access to Open-Source community libraries (such as scipy, matplotlib, and numpy).	The platform must support scripting in a widely-used, high-level programming language that is compatible with modern versions, including access to a broad range of open-source libraries for scientific computing, data visualization, and numerical analysis.
1.3	Platform should include a Python 2 to 3 conversion tool.	The platform should include a tool to facilitate the conversion of legacy script written in earlier version of the scripting language to the current version.
1.4	Support for Visual Studio 2019 compiler.	Omitted
