

Grammarly users registration guide

Grammarly's AI-powered products help people communicate more effectively. Millions of users rely on Grammarly every day to make their messages, Research documents, article and social media posts clear, mistake-free, and effective.

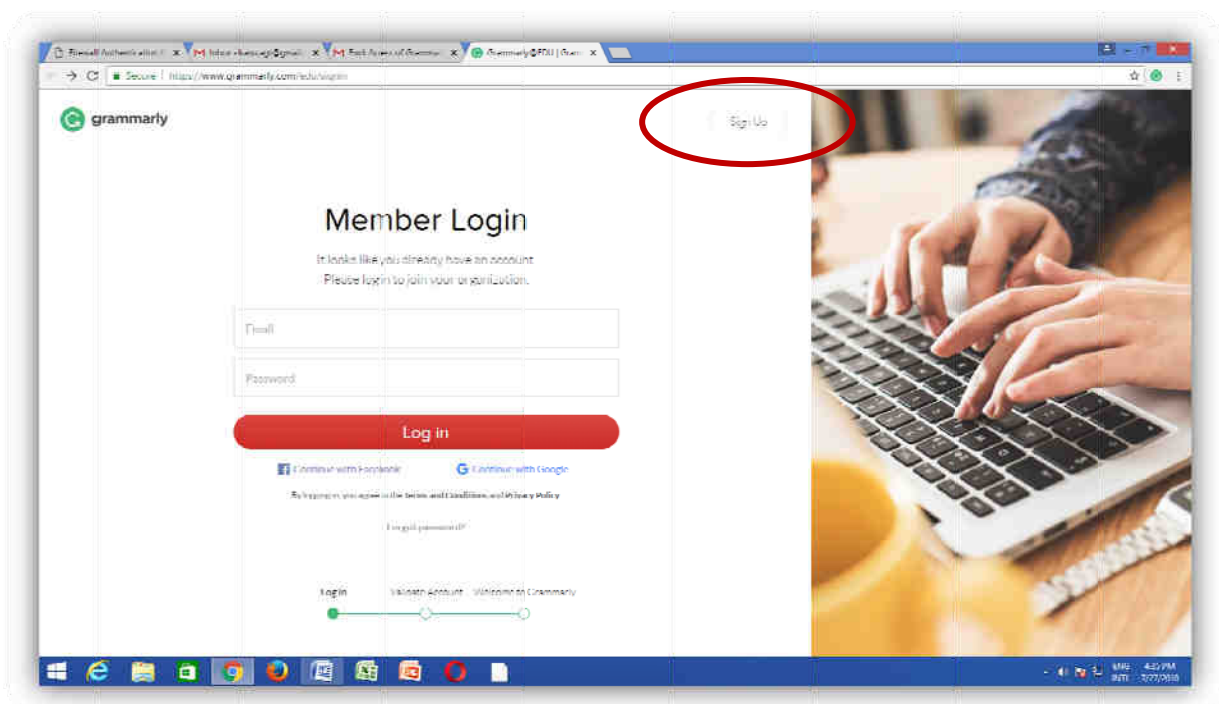

How does Grammarly work?

- Grammarly automatically detects grammar, spelling, punctuation, word choice, and style mistakes in your writing. It's easy to use.
- Copy and paste any English text into Grammarly's Editor, or install Grammarly's free browser extension for Chrome, Safari, Firefox, and Edge. Grammarly will help you write correctly on nearly every site on the web.
- Grammarly's algorithms flag potential issues in the text and suggest context-specific corrections for grammar, spelling, wordiness, style, punctuation, and even plagiarism. Grammarly explains the reasoning behind each correction, so you can make an informed decision about whether, and how, to correct an issue.
- Download Grammarly for Microsoft® Office on Windows.
