The Institute encourages faculty members of the institute to take-up/speed up COVID-19 related research and projects. Several project proposals have already been undertaken and one project is supported by SERB, Government of India. Several other projects are ongoing and submitted for external funding. Student startups would also be involved in ongoing research activities.

Faculty members have proposed various projects on COVID-19 related issues. Institute is also planning to submit a network project including other institutes on development of possible drugs for COVID-19. Institute will encourage faculty members and students to initiate projects related to post COVID-19 challenges at institute level.

IIT (BHU) Varanasi is working on a bottom-up approach by making sanitizer and giving training to police personals and city administration regarding sanitization. Further the institute has initiated projects on detection, safety and mitigation of coronavirus. The R&D efforts on COVID-19 are coordinated by Dean R&D.

Output of research

1. Re-purpose approved drugs from DrugBank database for treating COVID-19
2. Low cost sanitizer is developed and prepared in large quantity.
3. Full body sanitizer device
4. Low cost mask materials developed and used for fabrication of masks.
5. Anti-viral mask using facile technique is developed.

The Institute encourages faculty members of the institute to take-up/speed up COVID-19 related research and projects. Several project proposals have already been undertaken and one project is supported by SERB, Government of India. Several other projects are ongoing and submitted for external funding. Student startups would also be involved in ongoing research activities.

Faculty members have proposed various projects on COVID-19 related issues. Institute is also planning to submit a network project including other institutes on development of possible drugs for COVID-19. Institute will encourage faculty members and students to initiate projects related to post COVID-19 challenges at institute level.

IIT (BHU) Varanasi is working on a bottom-up approach by making sanitizer and giving training to police personals and city administration regarding sanitization. Further the institute has initiated projects on detection, safety and mitigation of coronavirus. The R&D efforts on COVID-19 are coordinated by Dean R&D.

Output of research

1. Re-purpose approved drugs from DrugBank database for treating COVID-19
2. Low cost sanitizer is developed and prepared in large quantity.
3. Full body sanitizer device
4. Low cost mask materials developed and used for fabrication of masks.
5. Anti-viral mask using facile technique is developed.
